It is to increase awareness among common people to save the lives of girl child by completely removing the female foeticide. People should celebrate the birth of their girl child and educate them with full responsibility as they do for their boy child. Empowering women brings all around progress especially in the family and society.

Beti Bachao Beti Padhao scheme is the way to achieve positive changes in the human negative mindset for girls.

EDUCATIONAL DEVELOPMENT PROGRAMME

The organization conducted the programme in Patna District of Bihar State. The spread of education in a vast country like ours has always been a challenging task. If we talk about education in rural area this figure is very cruel.

Education is a process of development from the cradle to the grave. Man becomes a gentleman through education and he alone can be educated with the other living organisms are trained. While his life is guaranteed by food, it is glorified by education. However, it is an undeniable fact that no community or society or district or state or nation can prosper without having educated manpower. Education is the most powerful instrument for imparting ideal training to the people.

HEALTH & FAMILY WELFARE PROGRAMME

The organisation conducted the programme in Sitamarhi District of Bihar State. OUR society organized health care programme to coordinate and promote health education. Society's activities include training of health and community welfare workers in health education, carrying out research in behavioural changes of the community in relation to health practices. It is also representing technical assistance to official and nonofficial agencies in the field of health education, developing syllabi for different age groups of school children and teachers training courses and cooperating and collaborating with physicians & social worker for promoting health education.

SOCIAL AWARENESS PROGRAMME

The organisation conducted the programme in PATNA District of Bihar State. The Environmental pollution menace is one of the most serious problems, which world is facing today. Our environment is getting more and more degraded with every passing day. Nature has blessed us with the environment, which is free of all pollutants. But man has indiscriminately been cruel with himself by polluting the environment, which sustains all life. Environmental pollution is normally of three kinds: (1) air pollution (2) water pollution (3) noise pollution.

SKILL DEVELOPMENT PROGRAMME

The organisation conducted the programme in PATNA District of Bihar State. A major problem faced by educated Youth in rural areas, is the lack of locally available employment opportunities. It results in frustration and consequent migration. If rural youth get adequate opportunities for taking up gainful ventures at the local level, they would not only be able to improve their well being but also contribute to the economy. Self-employment is a possible solution to this problem.

A small step in a remote village in the country, proved to be a significant milestone in this direction.

SOCIAL JUSTICE PROGRAMME

The programme was conducted in PATNA district of Bihar state. We make people understand about social justice, in this program, what it's about. Protection of equal access to liberties, rights, and opportunities, as well as taking care of the least advantaged members of society. Thus, whether something is just or unjust depends on whether it promotes or hinders equality of access to civil liberties, human rights, opportunities for healthy and fulfilling lives, as well as whether it allocates a fair share of benefits to the least advantaged members of society.
